PARTNERSHIP OPPORTUNITIES

DATE: THURSDAY, OCTOBER 29
TIME: 6:00-9:00 PM
LOCATION: WATERFIRE ARTS
CENTER

Providence, RI

Dear Community Partner,

The American Cancer Society welcomes you to Shuck Cancer! We are so excited to announce that Shuck Cancer is coming back to RI in 2026 for our second annual event! This premiere event allows attendees to network with hundreds of Rhode Island's finest. Attendees will enjoy fresh oysters and a variety of delicious foods, sip on wine, beer, and craft cocktails, listen to music, and enjoy great raffle items - all while supporting the fight against cancer. Every dollar raised will go directly towards our mission of ending cancer as we know it, for everyone, through advocacy, cancer research, and patient support.

In Rhode Island alone, the American Cancer Society estimates 7,480 new cancer cases this year, with 2,110 estimated deaths. The American Cancer Society's vision is to end cancer as we know it, for everyone.

Since its inception, Shuck Cancer has raised \$2.7 million for the American Cancer Society.

We would love for you to join us as a sponsor for our second annual Shuck Cancer event. Your support will make a meaningful difference in our effort to save lives and lead the fight for a world without cancer.

Sincerely,

Sylvia Canestrari

Senior Development Manager

Sylvia.Canestrari@cancer.org

American Cancer Society[®]

The American Cancer Society is on a mission to free the world from cancer.

We are the only organization that integrates discovery, advocacy, and direct patient support to measurably improve lives. Our efforts in these areas have contributed to a 32% decline in cancer mortality since 1991.

Advocacy

By activating grassroots volunteers nationwide, the American Cancer Society Cancer Action NetworkSM (ACS CAN) fights cancer in city halls, statehouses, and Congress by elevating the patient voice to advance policy change. We are making cancer a national priority through our advocacy efforts.

Discovery

The American Cancer Society has played a role in most of the cancer research breakthroughs in recent history. As the largest nonprofit funder of cancer research in the US outside of the federal government, we've invested more than \$3.1 billion in cancer research since 1991, contributing to the 3.5 million fewer cancer deaths as a result of breakthroughs.

Patient Support

The American Cancer Society works to ensure no one feels alone at any point on their cancer journey, from prevention to detection and diagnosis, through treatment and survivorship, and, for some, the end of life. We ensure people impacted by cancer have the support, information, and resources they need, all aimed toward eliminating cancer disparities.
